21-22 June 2018 | The Four Seasons Hotel | Hong Kong

Post Event Report

Background

It is with great pleasure and satisfaction that we provide this executive summary outlining the success of the first edition APAC Family Office Investment Summit.

1. The Summit hosted an incredible 108 delegates
2. Attendees included 74 elite APAC based Family Offices
3. Delegates participated from China, Hong Kong and Singapore
4. We saw an unprecedented 70% LP to 30% GP audience

The Summit was hosted in Hong Kong by a prominent Single Family Office.

The APAC Family Office Investment Summit provided two days of private peer-to-peer conversation, networking and cross border thought leadership designed to identify actionable investment strategies in our current low yield environment.

The Summit advisory board – made up of Family Offices – was focused on qualifying delegates to include only key family members and key decision makers.

Programme and Speakers

As the Summit was organised and hosted by a Family Office, there were an unprecedented number of APAC Family Office speakers compared to any other event to date in the region.

The Family Office delegates reported that they felt very comfortable participating, as they were invited by their peers in an exclusive invitation-only, closed-doors environment.

The Summit programme was formulated based on recommendations from the Family Office advisory board and included topics such as Real Estate Investment, Digital Assets, Private Equity, Venture Capital, Wealth Structuring, Succession Planning and Philanthropy.

The Summit Sponsors product and service offering was intentionally aligned to the requirements of the participating Family Office delegates, resulting in highly productive and efficient networking between participants.
