

Post Events Report

2018-2024

Overview

Formerly presented as part of a collaboration, the APAC Family Office Investment Summit will see Alea Global Group hosting this annual event alone **for the first time in 2025**, in line with the rest of our event series.

As we prepare for this seventh APAC-focused summit, we look back on six successful editions with our partners.

Since it first began in 2018, our APAC summit quickly became the leading forum for Asia-Pacific family offices in the region and attracted a majority of decision-makers among its delegates as well as leading experts among its speakers.

The programme

As a family office ourselves, Alea Global Group understands the needs of other family offices, and there are some evergreen topics we include in our summits no matter where they are in the world. Topics such as real estate, wealth preservation, succession planning, private equity and venture capital have always been available for discussion at each of our events.

At the same time, we understand that APAC has its own unique identity, opportunities and concerns, and we have viewed the entire program through this lens, including region-specific speakers, businesses and topics. The program has always been guided by the needs of family offices themselves through consultation and research, and the feedback on the selection of panels has been extremely positive.
